► *Company Profile...*

O'DRILL MCM was established in 1982 and is a well established name in the oil and gas industry for the last 32 years manufacturing:

- Pumps • Valves
- Solids Separation Equipment • Screens

► *Screen Manufacturing*

O'DRILL MCM manufactures a full range of **High Performance** shaker screens that are field-proven.

The shaker screens are manufactured to very high quality standards to meet D100 API rating. Our screens are specially designed and tested for an extended **screen life** and increased flow capacity under the most extreme and severe conditions. Our heavy duty screens will help you in lowering your operating cost.

► *Salient Features...*

Our rugged pretensioned screens are polyester powder coated and laminated to multiple layers of wired mesh to a perforated steel plate and welded steel frame.

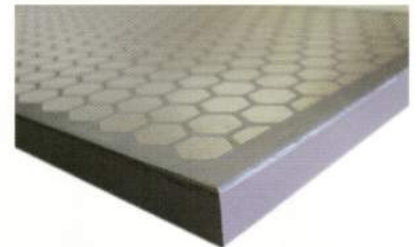

The high technology of manufacturing makes the difference!

► *A Cut Above...*

O'Drill MCM shaker screens are manufactured to high industrial standards capable of achieving API D-100 cut point from 925 to 98 microns.

► *Our Commitment to you!*

Superior screens for a competitive price!

A Screen for every application!

...Customer satisfaction is Guaranteed!
